Sample Size Reference

These metrics provide a reference for the number of unique visitor devices (Zartico Geolocation Data) and cardholders (Zartico Spend Data) used in the insights above and are controlled by the filters selected at the top. If these show yellow or red values, the insights should be treated as directional but less precise, owing to a smaller sample size. In these cases, expanding your filter criteria at the top will increase the sample size.

Visitor Cardholder Count Sample Size	Visitor Device Count Sample Size	Spend data loaded through:	Geolocation data loaded through:
500	**1,038**	**2025-05-23**	**2025-05-27**
