## Profile Builder Summary

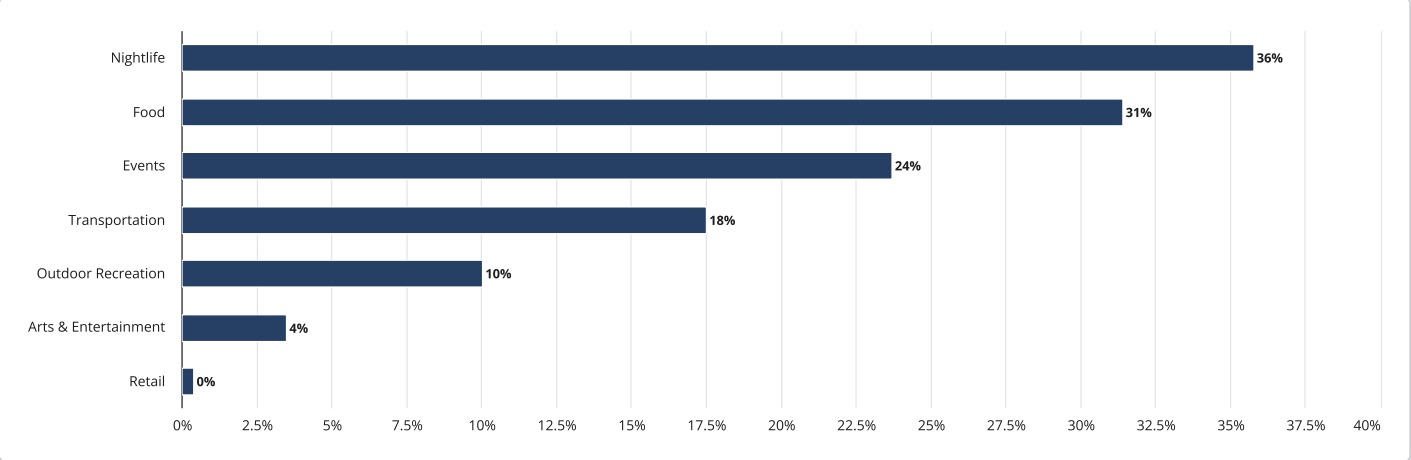
**Create profiles for multiple visitor markets to understand what they're more likely to engage with compared to your destination average.** Note that geolocation data less than 30 days old is subject to small changes through the normalization process.

These insights are based on a device count sample size of **1,197** and a cardholder count sample size of **301**.

These insights are based on a date range **2025-01-01** to **2025-03-31**.

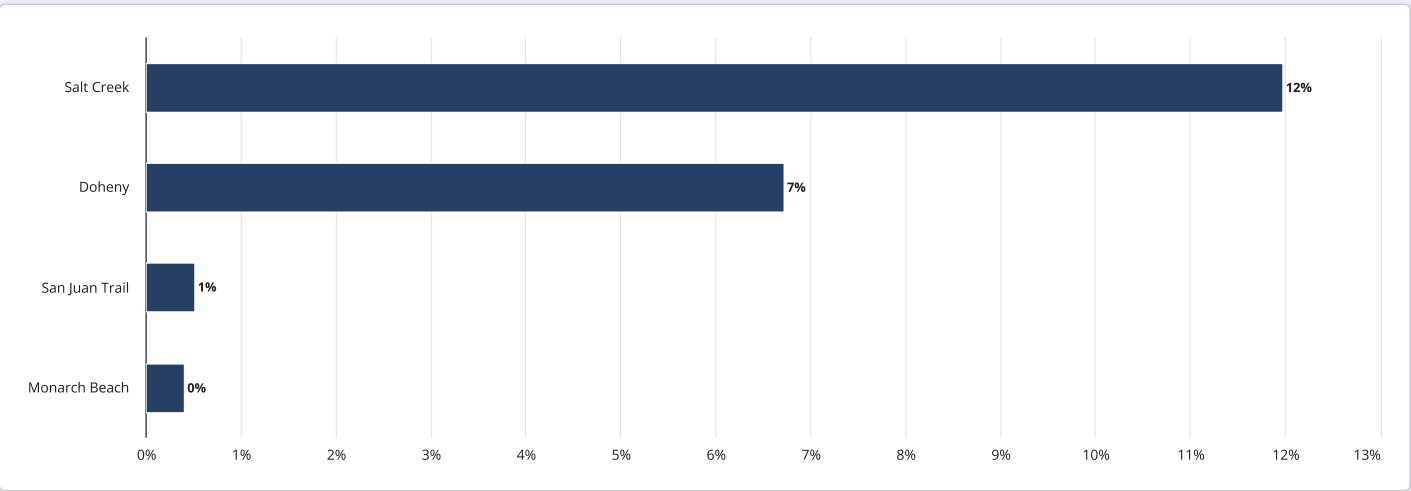
## Create Your Profile: Identify web content topics that selected markets are more likely to engage with

Source: Google Analytics 4
This shows the web content topics that visitors from your selected markets are more likely to engage with and compares them to your overall visitor. Note any key topics you want to highlight in your Visitor Snapshot



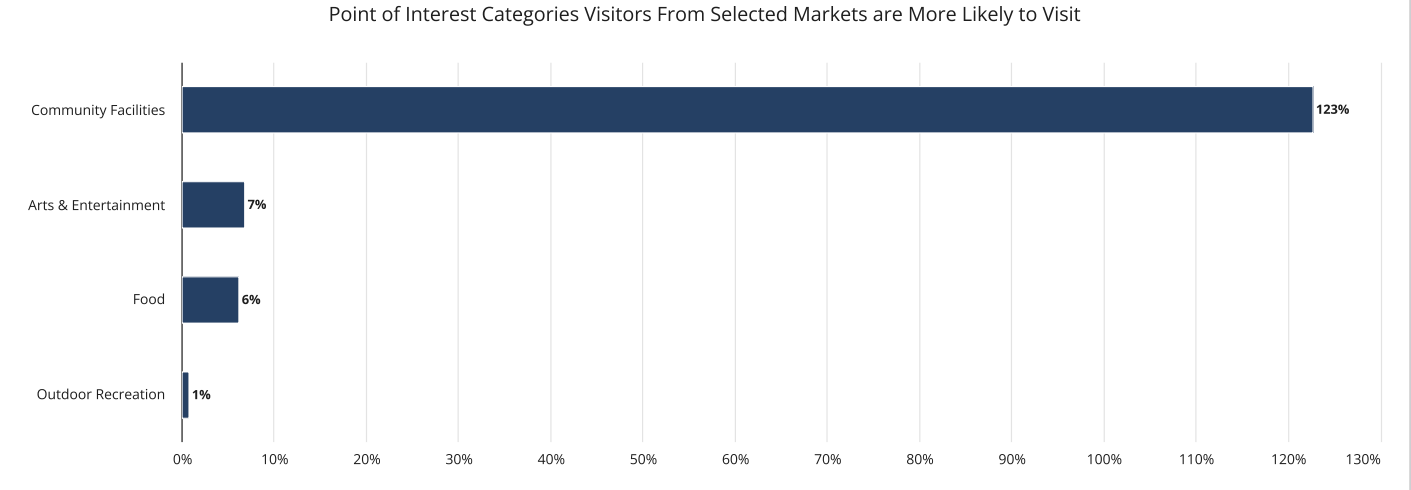
## Create Your Profile: Identify which regions selected markets are more likely to visit

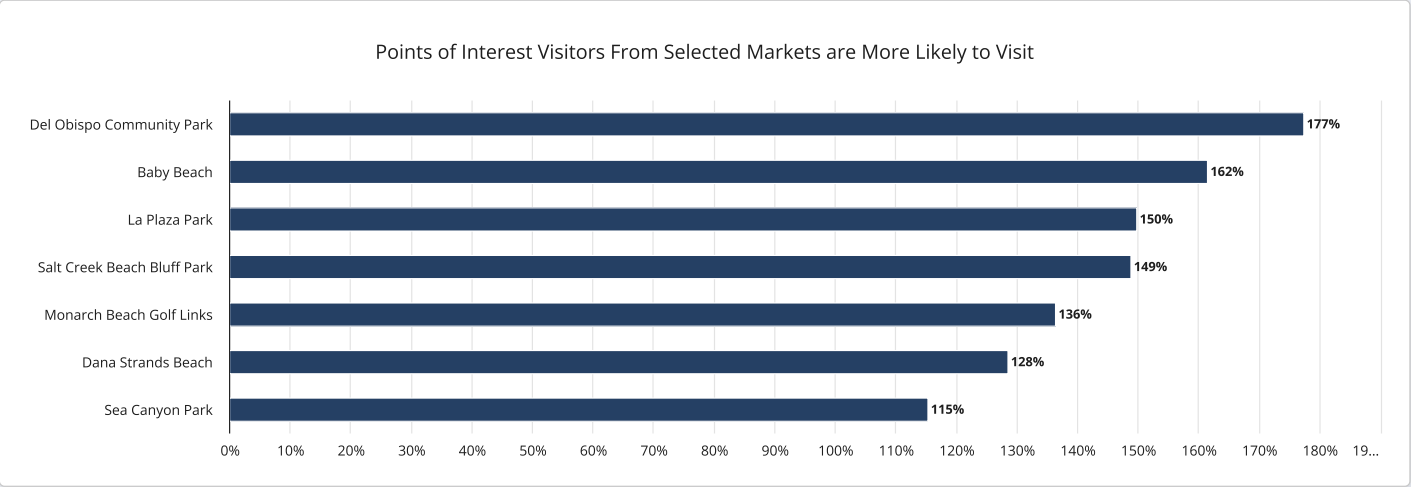
Source: Zartico Geolocation Data
This shows the regions where visitors from the selected markets are observed and compares them to your overall visitor. Note any regions you want to highlight in your Visitor Snapshot.



## Create Your Profile: Identify which point-of-interest categories and key points of interest selected markets are more likely to visit

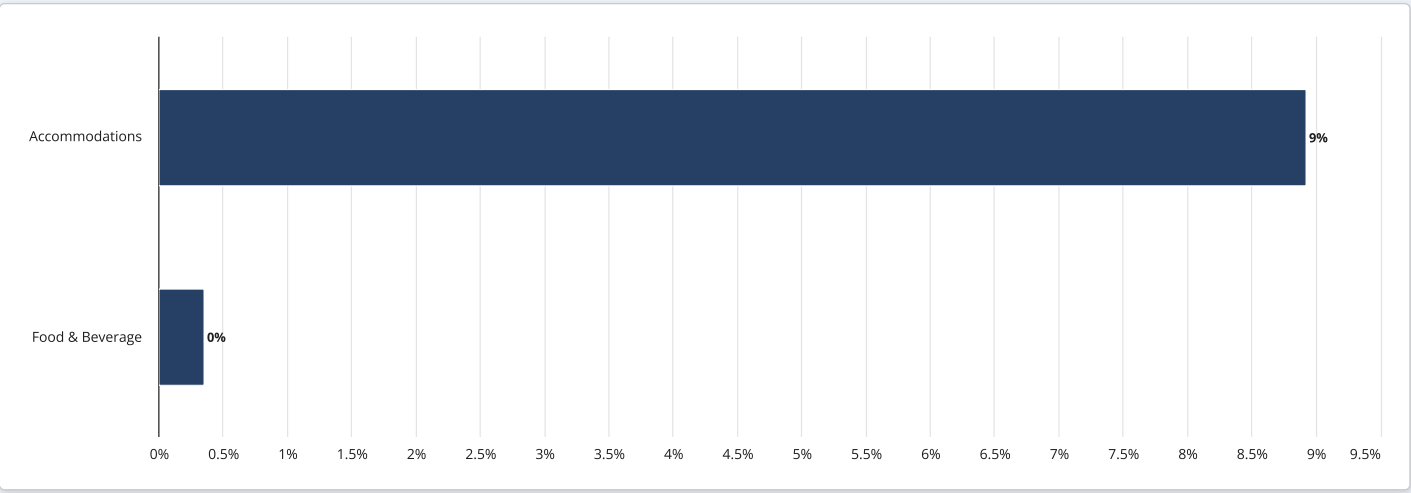
Source: Zartico Geolocation Data
Identify which primary categories and key points of interest visitors from the selected markets are observed and compares them to your overall visitor. Note any categories or points of interest you want to highlight in your Visitor Snapshot.





## Create Your Profile: Identify how selected markets spend in your destination

Source: Zartico Spend Data
This shows the primary categories where visitors from the selected markets spend and compares them to your overall visitor. Note any categories where your selected markets' share of spend is higher or different than the overall visitor for your Visitor Snapshot.



## Create Your Profile: Identify selected market demographics

Source: Zartico Spend Data
Take note of the demographic insights below as you build your Visitor Snapshot.

% of Visitor Cardholders with a Household Income $100k+

**70%**

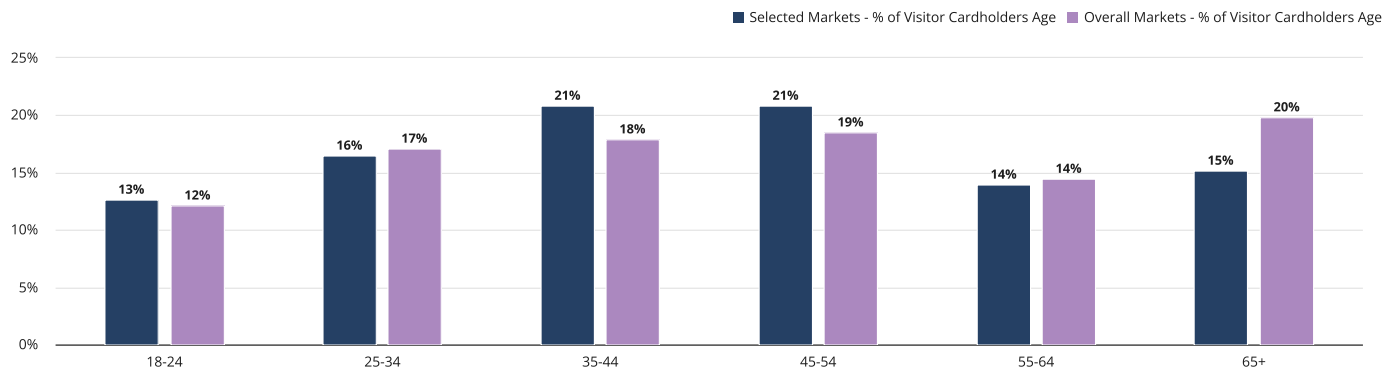
| 11% | 64% |
|---|---|
| Versus | Visitor Average |

% of Visitor Cardholders with Children

**27%**

| -13% | 31% |
|---|---|
| Versus | Visitor Average |

% of Visitor Cardholders by Age



## Sample Size Reference

These metrics provide a reference for the number of unique visitor devices (Zartico Geolocation Data) and cardholders (Zartico Spend Data) used in the insights above and are controlled by the filters selected at the top. If these show yellow or red values, the insights should be treated as directional but less precise, owing to a smaller sample size. In these cases, expanding your filter criteria at the top will increase the sample size.

| Visitor Device Count | Visitor Cardholder Count | Demographics Cardholder Count |
|---|---|---|
| 1,197 | 301 | 158 |

| Spend data loaded through: | Geolocation data loaded through: |
|---|---|
| 2025-03-31 | 2025-03-31 |
