Impact Report Summary

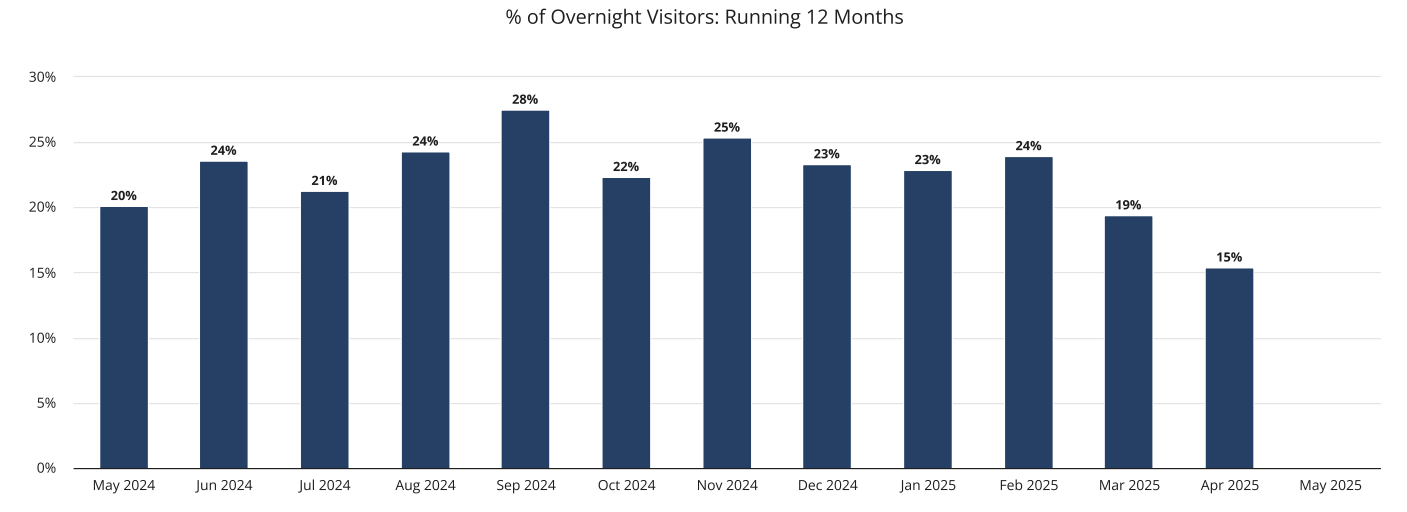
Understand how your destination is progressing toward your goals. These insights show performance over time. You will see historical performance over the most recent 12-month period, as well as last month compared to the previous month and the previous year.

These insights are based on a device count sample size of **1,038** and a cardholder count sample size of **500**.

The date filter will not change these insights.

Share of Overnight Visitors

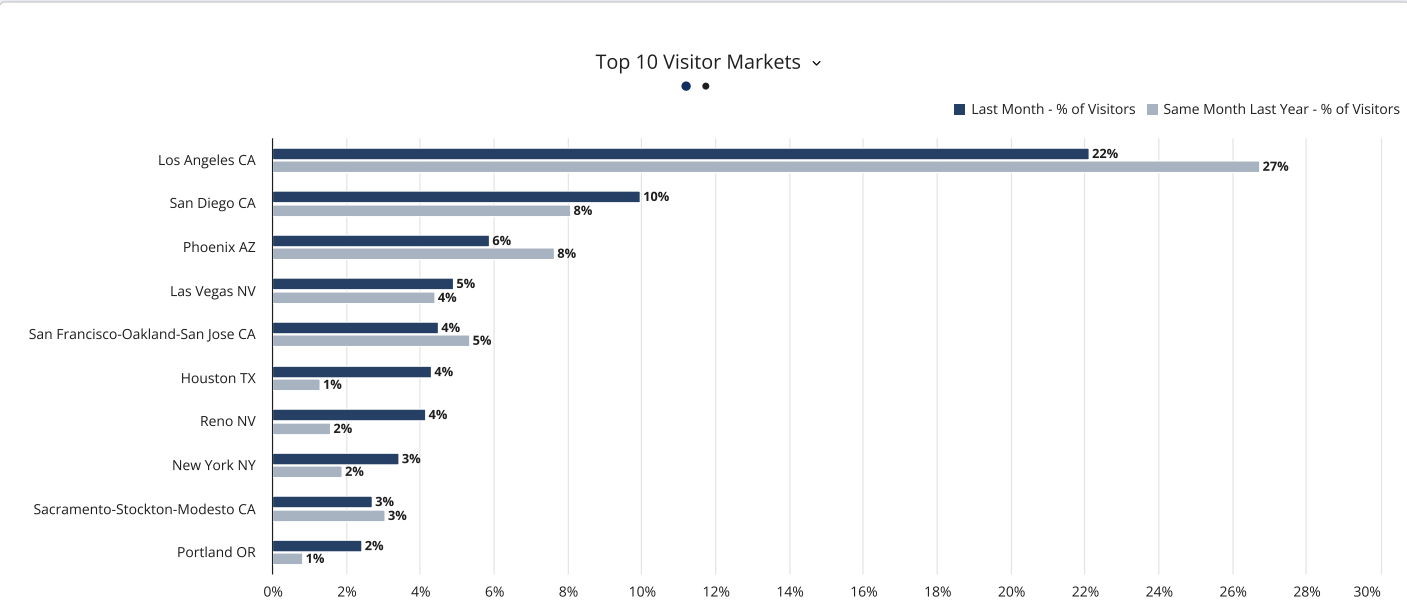
Source: Zartico Geolocation Data
Overnight visitors are strong contributors to your economy. Monitoring monthly changes in overnight visitation helps define strategies during key periods and mitigate the impact of seasonal changes.



Origin Market Trend

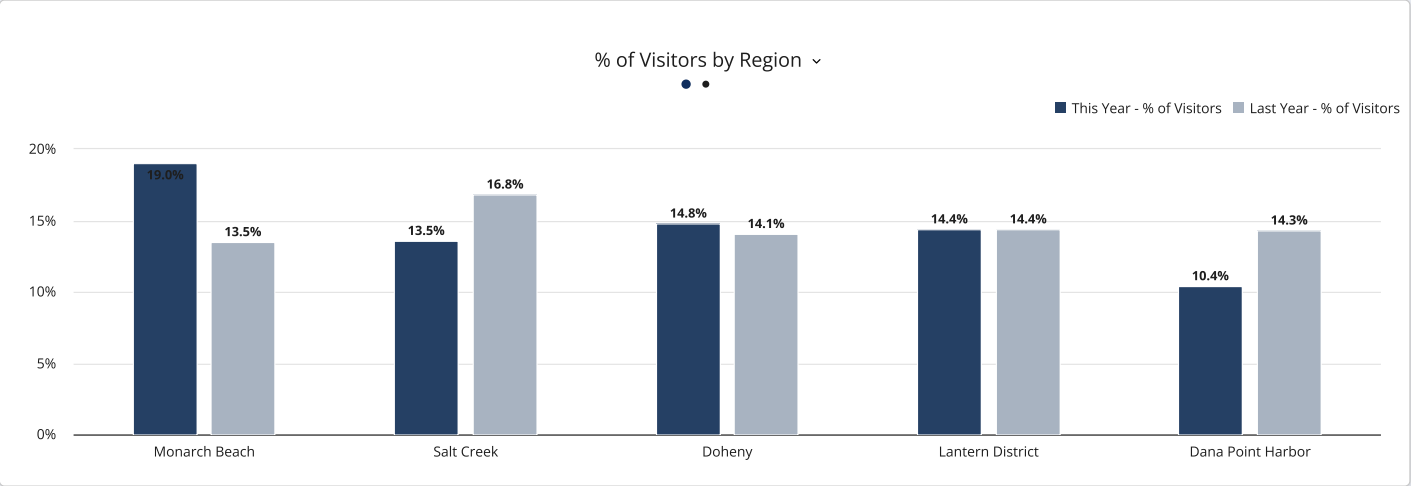
Source: Zartico Geolocation Data
Knowing where your visitors come from allows you to make better marketing decisions. Out-of-state visitors tend to stay longer in destination and spend more.

% of Out-of-State Visitors Last Month	% Change from Prior Month	% Change from Same Month Last Year
52%	**+4%**	**+5%**



Regional Visitation Trend

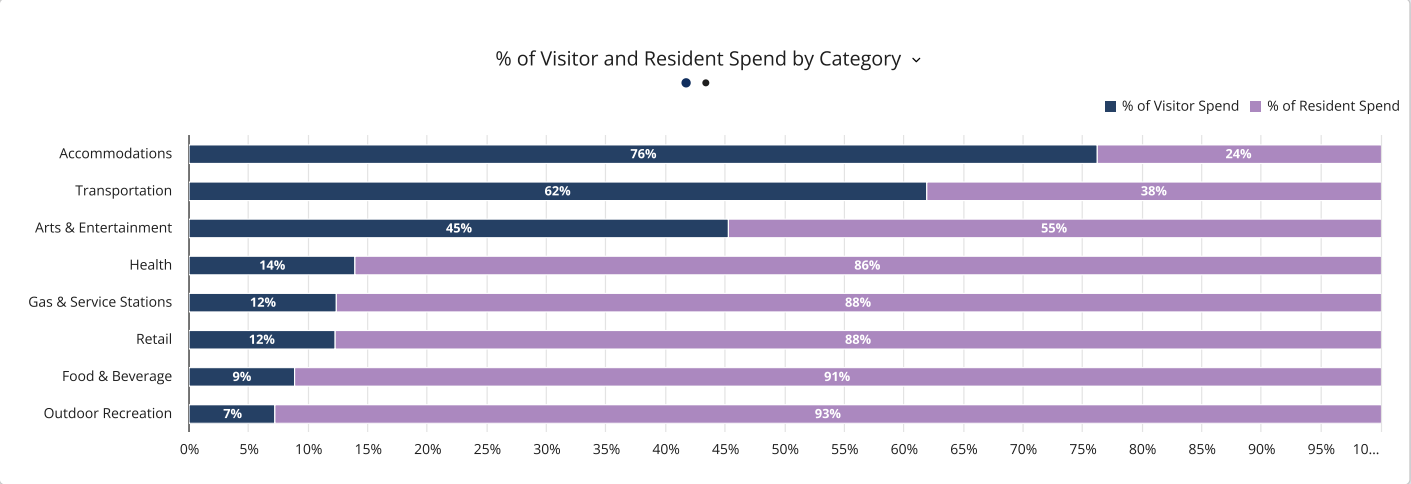
Source: Zartico Geolocation Data
Understanding where visitors go in your destination allows you to see opportunities to influence future visitor movement.



Impact of Visitor Spending on the Local Economy

Source: Zartico Spend Data
Visitors make an impact on your economy across all categories — not just accommodations and attractions. This shows the visitor share of total spending overall and by category, illustrating the full value of visitors to your destination and stakeholders

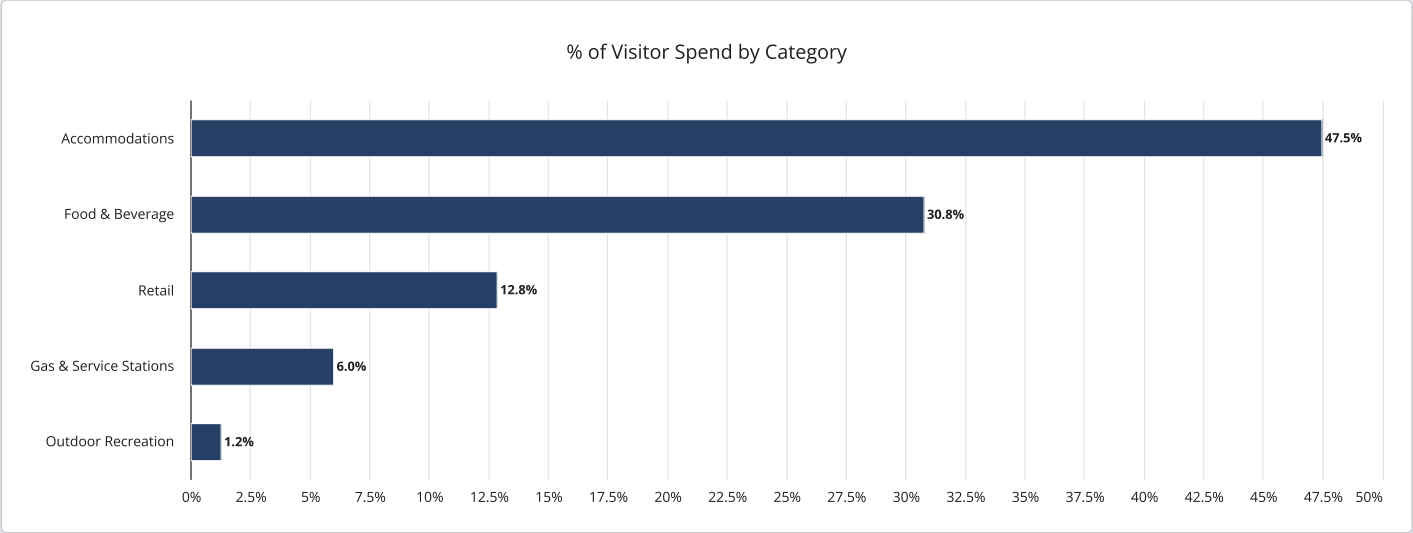
% of all Spend that came from Visitors Last Month	% Change from Prior Month	% Change from Same Month Last Year
21%	**-7%**	**+2%**



Visitor Spending Trends

Source: Zartico Spend Data
Understand average visitor spending and how visitors spend by category in your destination.

Avg. Visitor Spend Last Month	% Change from Prior Month	% Change from Same Month Last Year
$133	**-20%**	**-17%**



Sample Size Reference

These metrics provide a reference for the number of unique visitor devices (Zartico Geolocation Data) and cardholders (Zartico Spend Data) used in the insights above and are controlled by the filters selected at the top. If these show yellow or red values, the insights should be treated as directional but less precise, owing to a smaller sample size. In these cases, expanding your filter criteria at the top will increase the sample size.

Visitor Cardholder Count	Visitor Device Count
500	1,038
