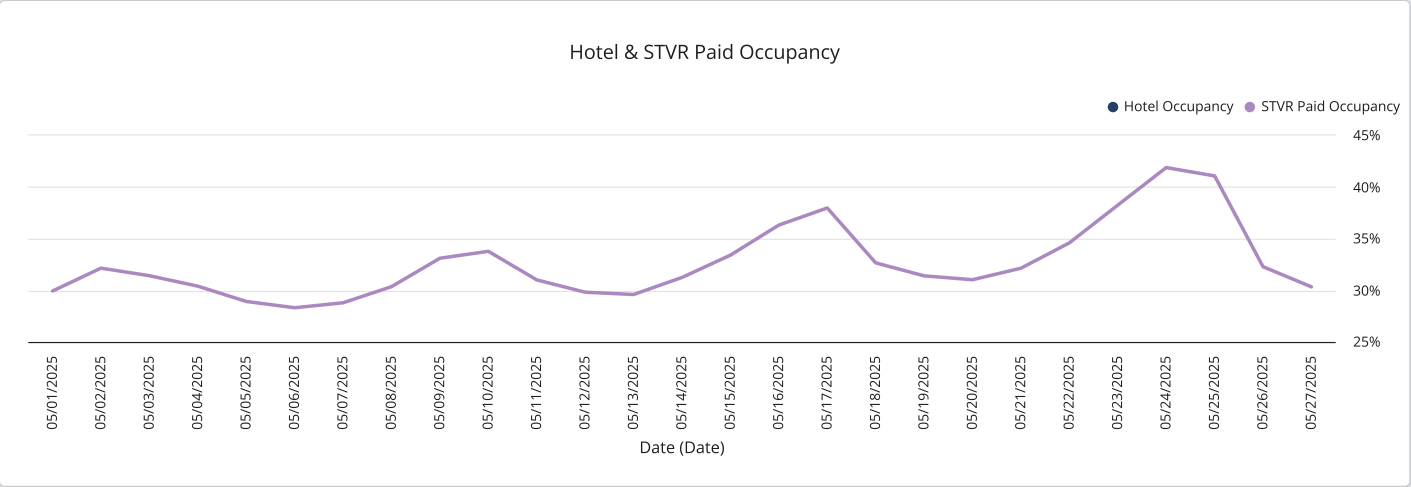
Summary KPIs

Source: Zartico Lodging Data.
KPI metrics display short-term vacation rental (STVR) and hotel performance for your primary geographic area.
Use the filter at the top to filter all insights by STVR or hotel performance. Twelve-month rolling trends can be found in the sections below.

Hotel Avg. Stay Value	STVR Avg. Stay Value	Hotel Avg. Length of Stay	STVR Avg. Length of Stay
–	$1,920	–	5.7 days
	22% % Change		-5% % Change
	$1,569 Previous Year		6.0 days Previous Year

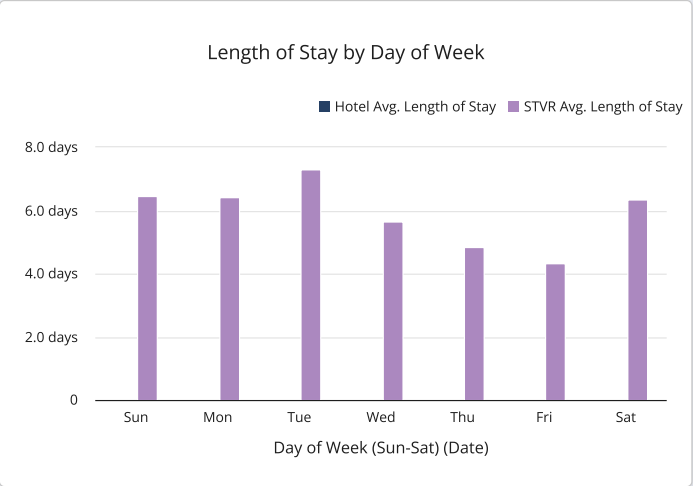
How does occupancy vary by day?

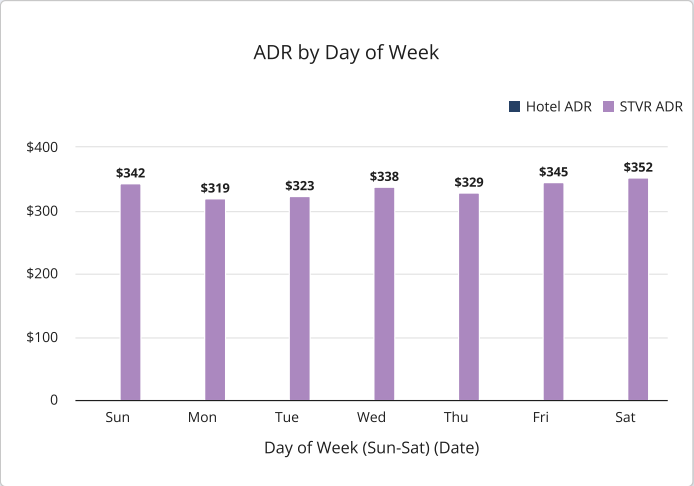
Use this chart to understand your daily occupancy trend and how it differs between hotels and short-term vacation rentals (STVR) for your primary geographic area.



How does lodging performance vary by day of week?

Changes in length of stay or ADR help to illuminate different visitor groups and the reasons why they visit your destination.



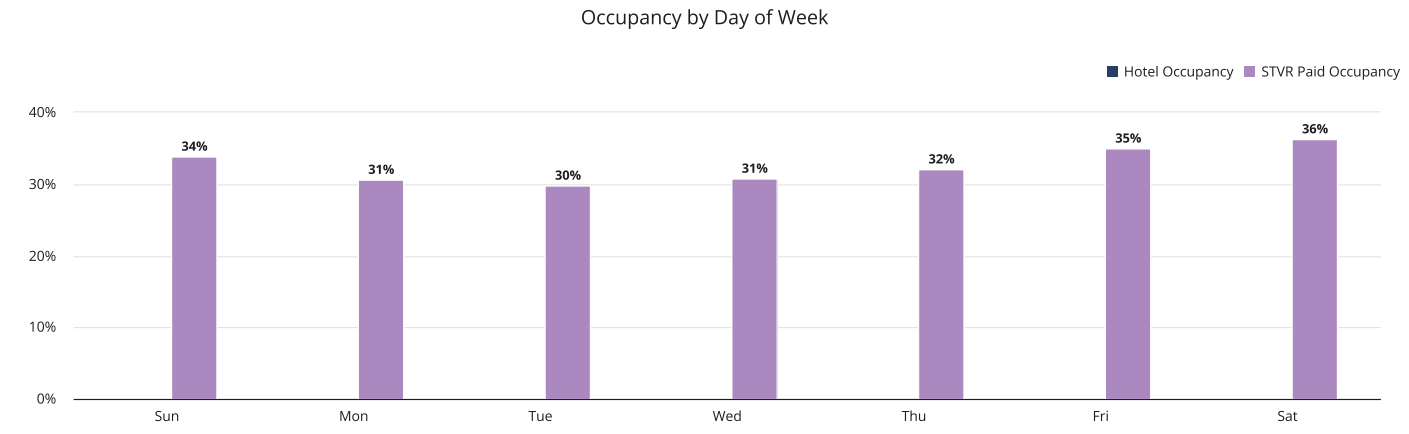


Key Lodging KPIs for Reporting

Use this section to report key insights about your hotels and short-term vacation rentals (STVR). Observed hotel demand is for properties reporting into the Amadeus system and will not reflect 100% of all properties in your destination. Use this to understand year-over-year demand trends. Zartico recommends using lodging tax data as the most authoritative measure of total lodging revenue and demand.

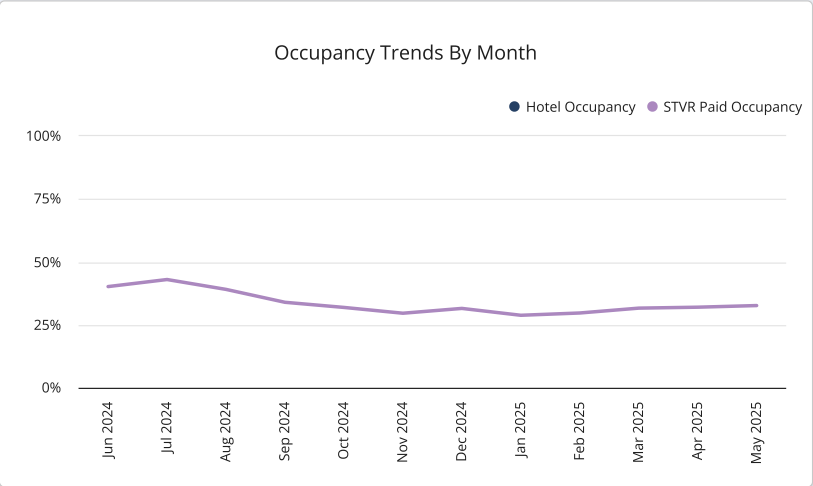
Hotel Occupancy	Hotel ADR	Hotel Demand	Hotel RevPAR
–	–	–	–

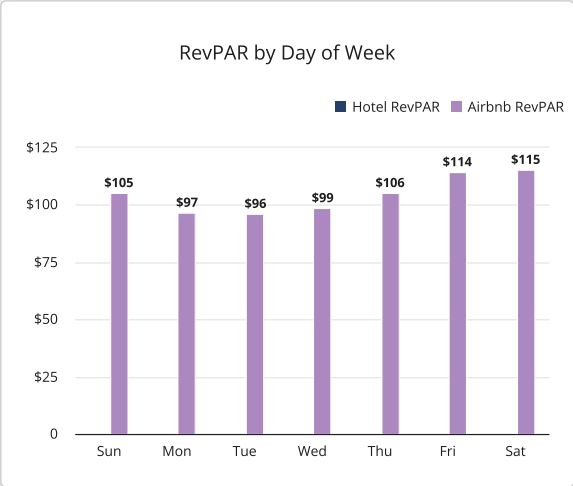
STVR Paid Occupancy	STVR ADR	STVR Demand	STVR RevPAR
33%	$336	3.9 K	$110
4%	29%	-20%	34%
% Change	% Change	% Change	% Change
32%	$260	4.9 K	$82
Previous Year	Previous Year	Previous Year	Previous Year

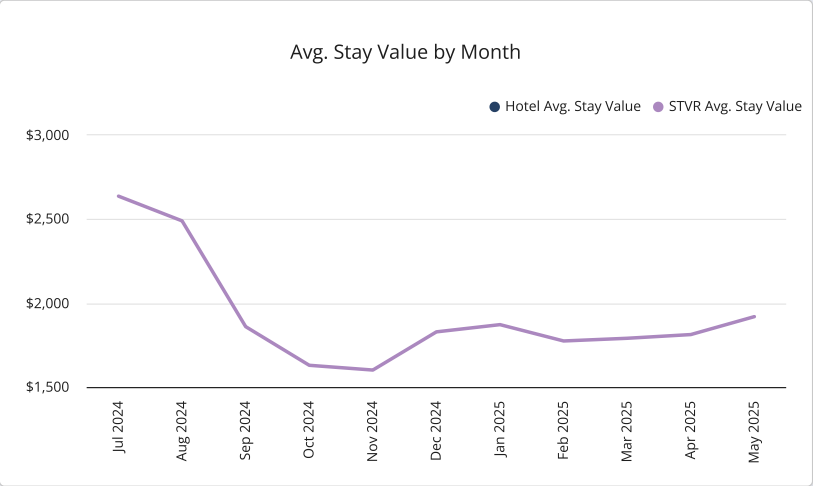


What are your destination-wide trends over the past 12 months?

Use these charts to see destination-wide trends over the previous 12 months, independent of the date filter specified above. Average Stay Value is total revenue divided by the number of guest check-ins, reflecting the amount for the entire stay timeframe. These insights reflect your primary geography only.

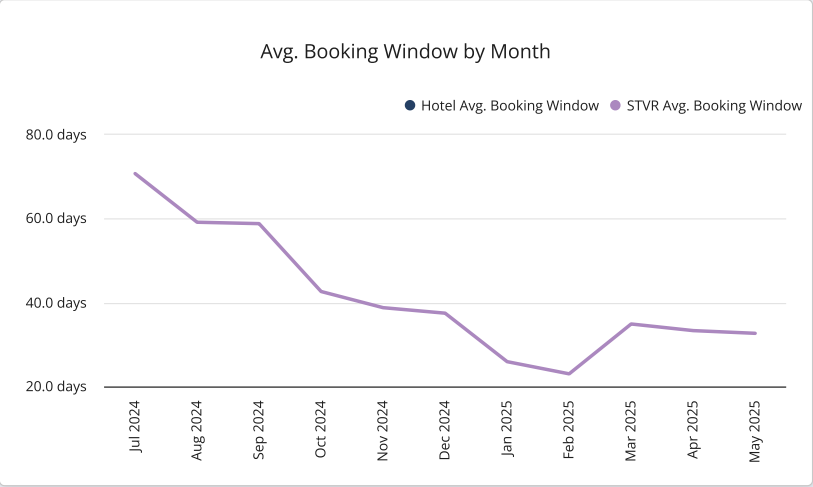


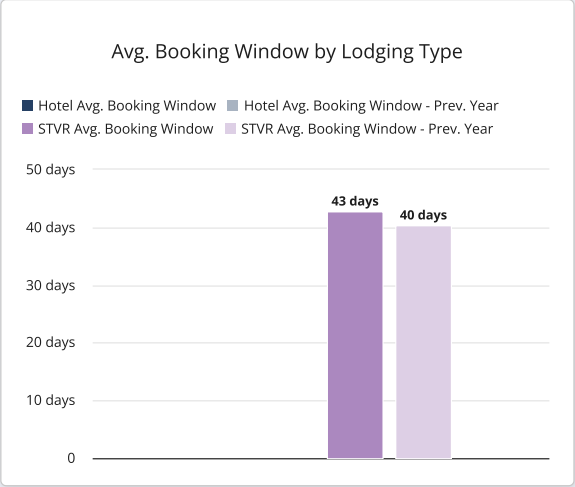




How does your average booking window change over time?

Use these insights to understand the difference in booking window between hotels and short-term vacation rentals (STVR) in your primary geography. The dates used in the graphs below indicate the check-in date, while the booking window indicates the number of days in advance of check-in the room or rental was reserved. Insights are not connected to the date filter and are auto-set to a rolling 12 months.





Complete Lodging Data Table

Export this data to either CSV or Excel. This chart shows data for all geographic areas in your subscription.

Month/Year (Date)	Market	Lodging Type	Source	Market Flag	Market Type	Avg. Stay Value	Occupancy	Hotel ADR	STVR ADR	Revenue	Demand	Hotel /
May 2025	Visit_Dana_Point	STVR	airbnb	primary	Vacation Area	$1,920	33%	–	$336.00	$1,324,510	3,942	
Apr 2025	Visit_Dana_Point	STVR	airbnb	primary	Vacation Area	$1,813	32%	–	$329.16	$1,422,961	4,323
