Website Summary

Understand your website performance and engagement. Use these information to inform future campaign and content strategies.

These insights are based on a date range **2025-05-01** to **2025-05-27**.

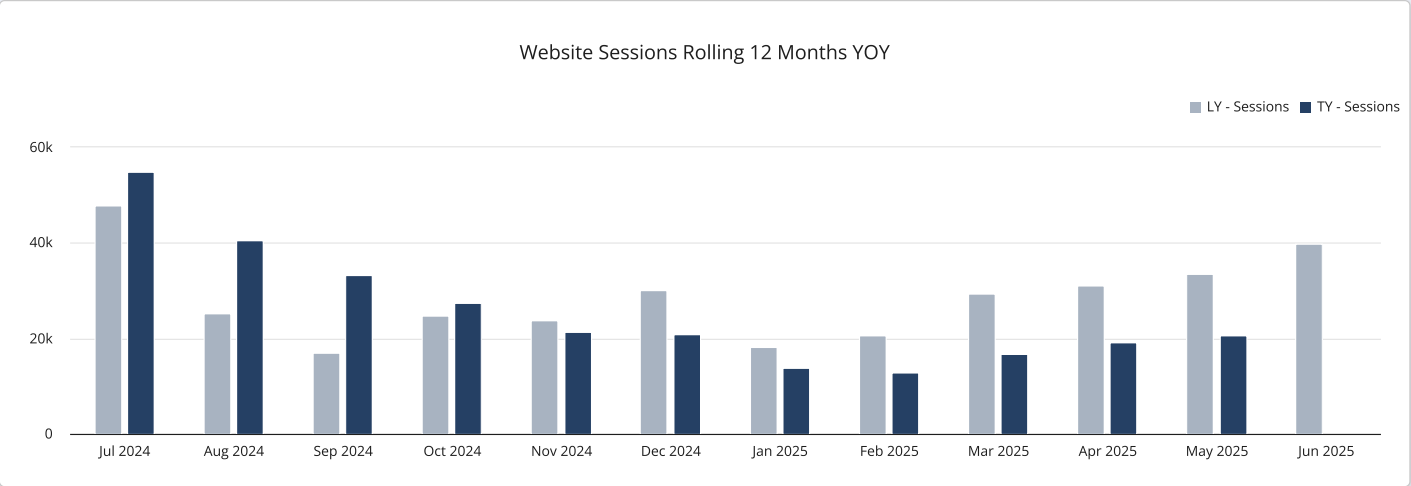
How does your website performance compare to the same time last year?

Source: Google Analytics 4. These KPIs are compared to the same period in the previous year, due to seasonality producing higher value insights. If you select "This Year" in the date range, you are comparing YTD this year to the complete previous year. Tip: Set an alert for the KPI you want to watch closely.

Sessions	Avg. Session Duration	Engagement Rate	New Users
20,607	01:38	50.6%	16,729
↘ -38% change	↗ 125% change	↗ 154% change	↘ -44% change
33,465 prev. year	00:43 prev. year	19.9% prev. year	30,112 prev. year

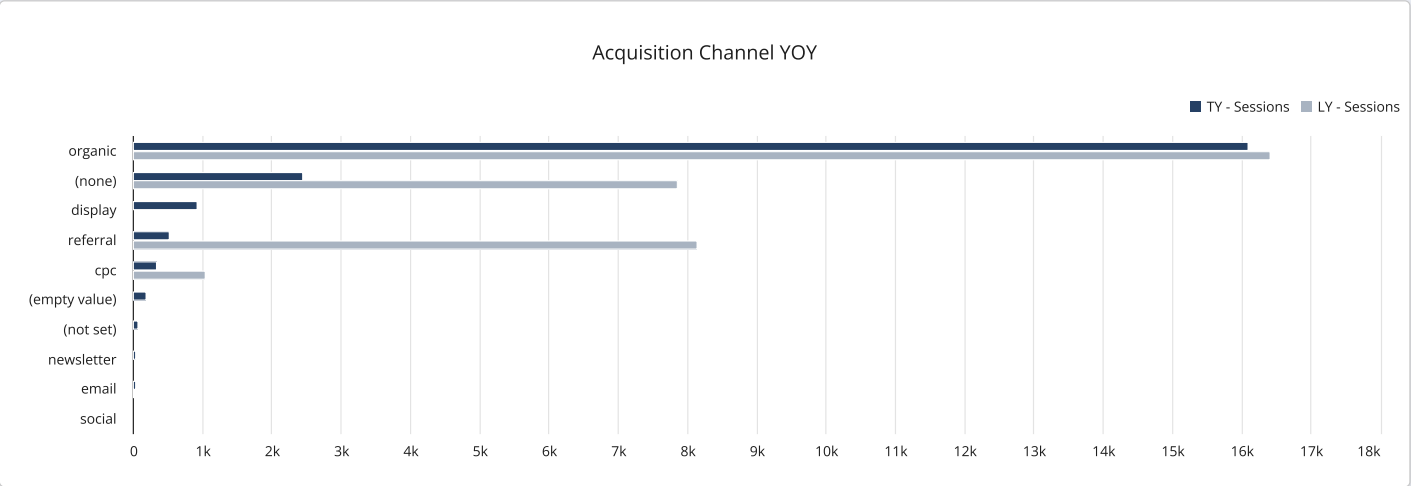
How does your website traffic compare to the same time last year?

Source: Google Analytics 4. LY = Last year, TY = This year. This insight is not tied to the date filter and will always show the last 12 months compared to the same time period last year.



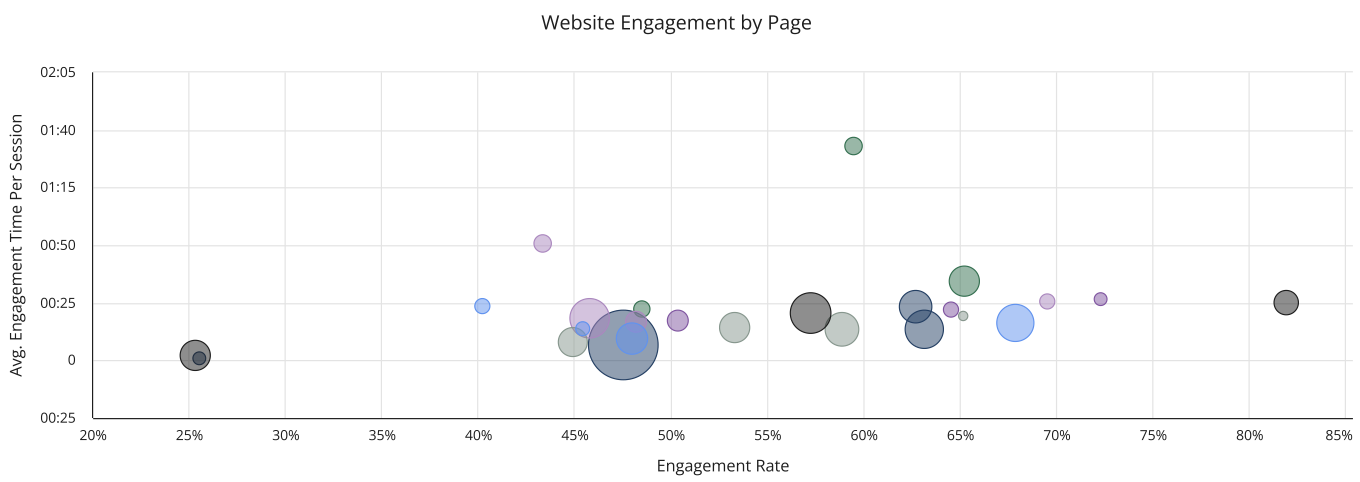
How have these traffic drivers changed compared to the same time period last year?

Source: Google Analytics 4. TY = This year, LY = Last Year; Tip: Click into a "Medium" to see traffic by webpage.



What are the most engaging pages on your website?

Source: Google Analytics 4. Bubble size = Total Number of Sessions. Only top 25 visited pages included.



What are your highest performing pages by acquisition channel?

Source: Google Analytics 4. Tip: Use this list for social promotion, native content and paid search.

Web Content - High Engagement Rate

Page Url ▲	Medium	Views (>250)	Avg. Engagement Time Per Session	Engagement Rate (>50%)

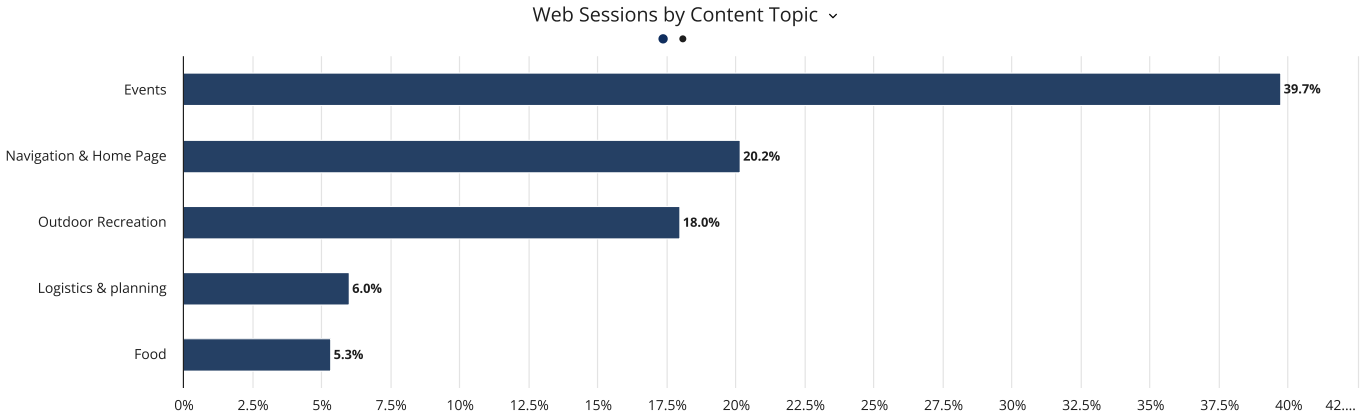
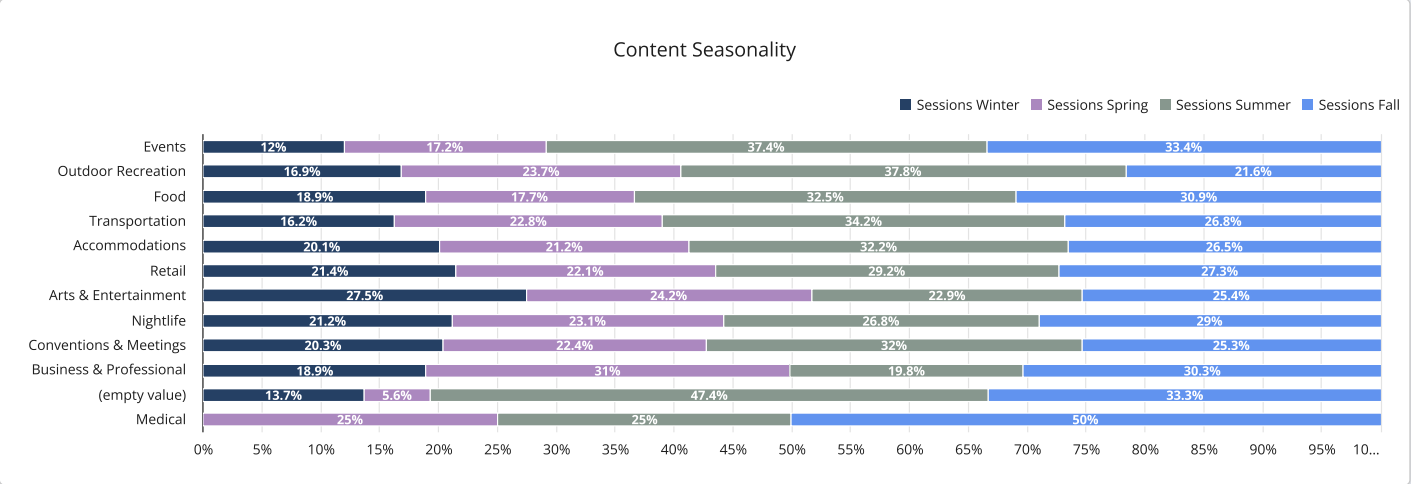
What website content is seeing the most traffic?

Source: Google Analytics 4 & Zartico. Click into a Content Topic to see the performance of the webpages in that category for the date range selected.



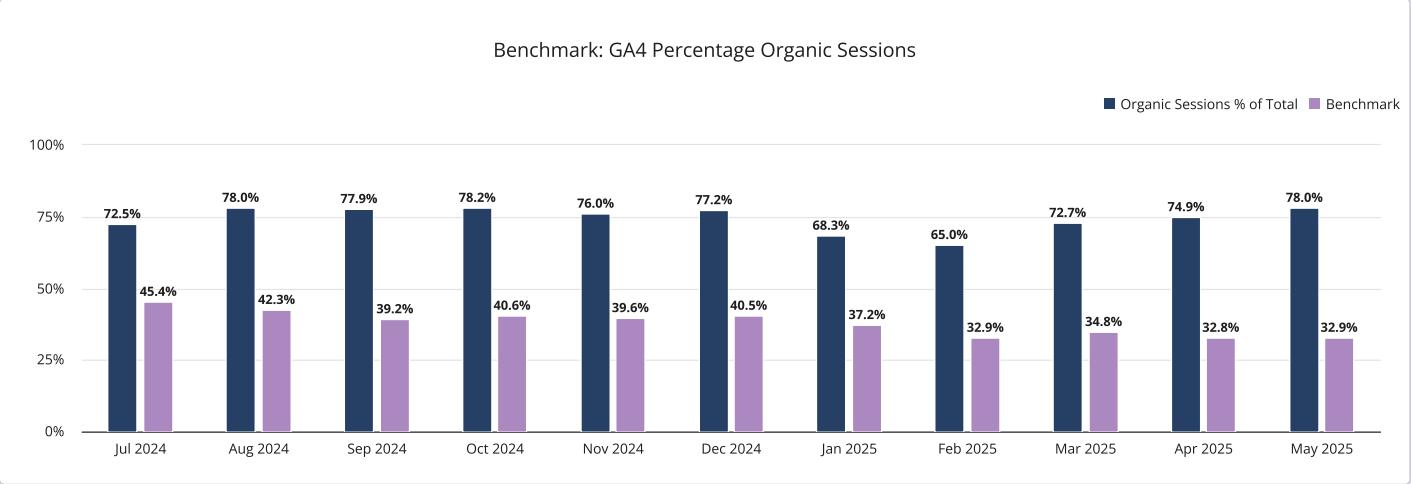
What season does each content topic see the most traffic?

Source: Google Analytics 4. This insight is not configured to the date filter above and instead will always show the last 12 months.



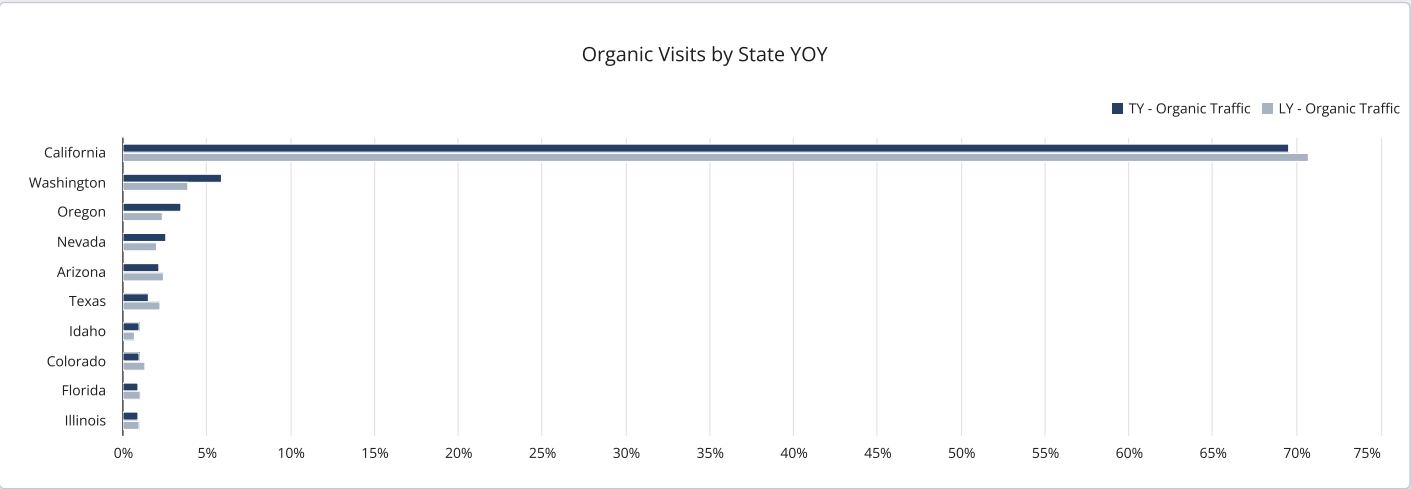
How does your organic traffic compare to the average percentage of organic sessions across all Zartico partners?

Source: Google Analytics 4 & Zartico. The blue bar is your data and the purple bar is the average of all Zartico partners. This insight is not connected to any of the filters above. Tip: Click into a month of your traffic to see organic traffic by webpage.



Which states are your website visits coming from? How has that changed YOY?

Source: Google Analytics 4. In the insight above, if your percentage of organic traffic is lower than the Zartico benchmark, it could be due to a certain market decreasing. You can supplement a dip in organic interest from a State with paid efforts in that State.

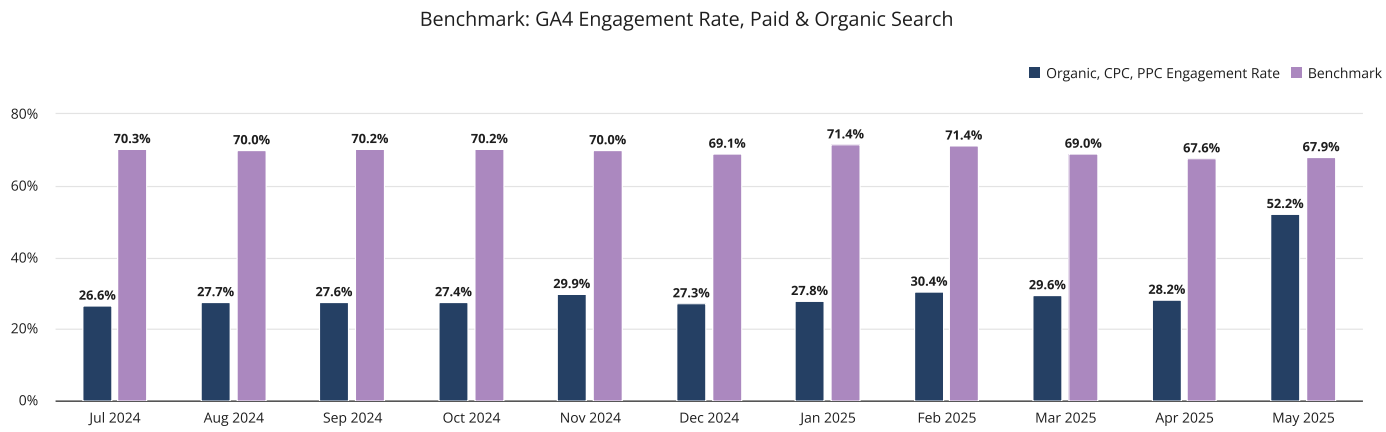


What pages are good contenders for on-page optimization to increase organic traffic?

Source: Google Analytics 4. Tip: These pages are good content to optimize to increase organic traffic.

High Traffic Pages with Low Organic Sessions

Page Url	Views (>250)	Organic Views % of Total (<50%)	Engagement Rate (>40%)
http://www.visitdanapoint.com/	4.7 K	35%	47.5%

How does your paid & organic search engagement rate compare to the average across all Zartico partners?


Source: Google Analytics 4 & Zartico The blue bar is your data, and the purple bar is the average of all Zartico partners. This insight is not connected to any of the filters above. Tip: Click into a month of your traffic to see engagement rate by day.
