Global Market Profile

MIDDLE EAST

February 2026

Introduction

- Tourism Economics forecasts that visitor spending in California will total $165B in 2026, of which domestic leisure visitation will account for $109B and international visitation will account for $26B.

- The **Global Market Profile** reports were developed by Visit California Research to provide the organization and the state's tourism industry with insights on California's domestic market and thirteen opportunity international markets through detailed market landscapes as well as highly targeted audience profiles and traveler behavior insights.

California Traveler & Trip Insights:

- **Market Landscape** includes foundational intelligence from Visit California:
  - Visitation and Spending Forecasts
  - Airlift Recovery (flights and seats)
  - Arrival Numbers & California Market Share
  - Consumer travel intent and barriers

- **Audience Insights** includes a profile of target travelers, including:
  - Description and size of Audience Target
  - Demographic profile
  - General travel planning behavior
  - General trip spending
  - Advertising and sports preferences

- **California Traveler & Trip Insights** includes details about visitors to California from the past year, including:
  - Trip purpose
  - First/Repeat visitation
  - Destinations visited
  - Travel party, accommodations, activities and expenditures

Methodology & Sources

- The report contains three sections:
  - The **Market Landscape** section is sourced from Visit California's key research partners, including Tourism Economics, NTTO, CIC Research, Cirium and YouGov.
  - The **Audience Insights** section is sourced from YouGov's Global Travel Profiles database which tracks travel-related sentiment and behavior in over 25 global markets, including all thirteen Visit California opportunity markets. Panelists are surveyed on preferred trip types, booking methods, accommodation preferences, and advertising perceptions.
    - The audience profile is built on a segmentation of consumers planning international leisure travel in the next 12 months and are considering California as a destination.* The profiles provide insights into those travelers most likely to visit the state.
  - The **California Traveler and Trip Insights** section provides information on trips that included a stay in California from the Survey of International Air Travelers (SIAT).

*Two years of response data are used for profiling. Profile targets for China and Japan include travelers considering California or other U.S. destinations due to sample size limitations.
